

## NEWTON PARISH COUNCIL

# Defibrillator Awareness

In conjunction with Newton Green Golf Club, the Parish Council has recently installed a defibrillator by the entrance of the Golf Club for the benefit of anyone living within a 1 mile radius of the Club. This means that most Newton residents will be directed to the defibrillator by the Ambulance Service should the need arise.

No training is necessary for you to operate the defibrillator, but should you want to understand how it works the Parish Council has arranged for Community Heartbeat Trust to give an Awareness session to residents on:

**Wednesday 26<sup>th</sup> April 2017 starting at 7.30pm in  
Newton Village Hall.**

The Awareness session will be followed by Newton's Annual Parish Meeting.
