Dear Newton resident

Newton Parish Council (NPC) is undertaking a further survey of its residents to gauge the support for projects to be undertaken in the village. Your collective views will help the councillors to decide how best to finance projects from the Community Infrastructure Levy (CIL) receipts NPC receives for new housing developed in the village.

Since last year's survey, the following progress has been made on the projects identified by residents as the most important:

Suffolk County Councillor, James Finch is now committed to reviewing options for a crossing across the A134 and with the ongoing speed calming measures of the SID and ANPR camera, the highest priority projects are moving forward. New footpaths in the village are still being sought, the recreation ground project is now complete, and the Newton Green Trust is looking at a project to improve the bio-diversity of its land. The Village Hall is looking at the project to install Wi-Fi in the hall. NPC has now placed the order for a replacement bus shelter on the Green which is due to be installed by March. The project to transfer the ownership of the allotments to NPC has taken a lot longer than anticipated but it is hoped to be completed by March.

Survey

You will find over the page, the list of outstanding projects from the Newton Neighbourhood Plan plus one that the Village Hall has identified. If there are any projects that you feel should be included please add to the area provided. **Would you then prioritise your three most important projects as 1, 2 and 3.**

You can either complete the survey by hand or use the electronic version on the Newton website www.newton.onesuffolk.net When complete you can either send via email to clerk@newton-pc.gov.uk, post to Cragston, Sudbury Road, Newton, Sudbury CO10 0QH or deliver to one of the following addresses:
